MEMORANDUM FOR THE RECORD

SUBJECT: Distribution of Congressional Material

1. The attached sheets describe internal, automatic distribution of Congressional hearings. These are hearings only, and do not include bills, reports, staff studies, or resolutions.
2. Bills and resolutions must be ordered from
3. All of the above involves a good deal of record keeping and
double checking, but at present no better method is in sight. One suggestion might be in order, to get greater Agency use of materials. The internal distribution of extra copies of hearings should be handled automatically by OCR to insure their maximum use. At present, despite extra copies, many materials are not available or known to the OCI Staff in particular.
